14th BIENNIAL PIMA SINDH CONVENTION
22nd & 23rd March 2015, Pearl Continental Hotel, Karachi.

MESSAGE FROM CHAIRMAN

It is a matter of great pleasure for all of us that PIMA Sindh convention is being held at very critical moments in the history of Pakistan, so its significance has increased enormously, I wish this convention may play an important role to create an atmosphere full of love, respect and harmony in the society.

PIMA's task is not only to provide cure for the medical ailments but also to strive against evils and moral degradations in the society, which are rather more harmful diseases for the nation collectively.

This convention has a lot to offer to everyone. The convention has been designed to highlight the modern scientific developments, social requirements of the nation, discussions, workshop and scientific session on the common topics in medical fields like cardiology, diabetes, pediatrics, neurology, psychiatry, orthopedics, child and women health and more others which a family physician face day in and day out in his/her professional life. However in the expanding field of medicine and genetics, ethical issues are fastly coming forth. Scholarly talk on these and other religious matters would be of great interest to everyone.

All in all we are sure this convention shall be a memorable one and would urge you to contribute whole heartedly for its success. We have tried our level best to make this two days event attractive and fruitful. The organizing committee has worked hard for its arrangements. We would also like to thank our senior colleagues for their input and advise all along. We welcome you to this great event in Karachi.

Dr. Misbahul Aziz
Chairman
PIMA Sindh Convention 2015, Karachi
